

This World...It Would Be A Better Place

**If we would:
Walk a little slower
Keep our voices lower
Treat everyone with kindness
Know that love is timeless
This world...it would be a better place**

**If we would:
Love each other madly
toss out the word "sadly"
Appreciate each moment
Enjoy it, own it
This world...it would be a better place**

**If we would:
Do away with racism
Replace it with em-bracism
Listen to our heartbeat
Wave our hands and stomp our feet
This world...it would be a better place**

**For I believe this is possible
Achievable you see
For every man, woman and child--for you and for me
With love all is possible, for us the human race
Believe it--and this world,
Well--it WILL be...a better place**
